## Botox

Botox is one of the best known and most popular non-surgical treatments for treating lines and wrinkles caused by smiling and frowning. It is used to prevent the muscle contractions that cause furrows and fine lines when the face is making expressions. The treatment is virtually painless and results are visible within three to ten days, lasting for three to four months. In addition to the treatment of frown lines and wrinkles Botox is also used to treat hyperhidrosis (excessive sweating), uncontrollable blinking (blepharospasm), cross eyed (strabismus) as well as muscle stiffness or movement disorders.

**Doctor consultation** £50\*

## Fillers

Dermal fillers can be used to improve the appearance of expression lines and scarring. These products are all hyaluronic acid based (non-animal fillers) which are used to replenish lost volume in the skin, smoothing out lines and wrinkles thus helping to erase the signs of ageing without resorting to surgery. We also offer lip enhancement and "smile boost" treatments.

### Main areas include:

Nasolabial – nose to mouth lines  
Marionette lines – mouth to jowl lines  
Lip and cheek augmentation  
Tear trough – hollows around eyes  
Temporal hollows  
Brow lift and Jawline

### Sculptra

A fantastic new weapon in the war against wrinkles has arrived and its name is Sculptra™. It's new, innovative and is tailor made for those who want to banish deep lines and wrinkles and restore the facial volume which has diminished with age.

**Sculptra** £1100
